Nepal Tibet Bhutan Combo Tour – 13 Days

Attractive Travels and Tours is offering you a combo tour, that includes three awesome nations (Nepal, Tibet and Bhutan) at once!

Nepal

Start with an authentic art and cultural tour of Nepal in Kathmandu. You will be visiting all the UNESCO heritage sites in the valley with a reliable guide. Admire the blend of mountains and lush green landscapes from the popular hill station of Nagarkot.

Explicitly included in the Nepal Tibet Bhutan Combo Tour, is a mountain flight that lets you experience the towering mountains from a flight between Lhasa and Paro. After all, flying over the Himalayas through this route is nothing less than a breathtaking mountain flight experience.

Tibet

Lhasa is a place of awe and wonder. Owing to its vicious wild landscape and unique Tibetan culture, all things considered, it is a dreamland. The artistic Buddhism influenced monasteries hold centuries of heritage. This treasures an aspect of Bhutanese life that you would love to witness in person. The peace of being in such a high altitude religion will lift up your spirituality and make you feel endowed with the presence of Lord Buddha.

Bhutan

The glory that the Himalayan country Bhutan holds is truly inexpressible. Any words of appreciation would always be unsatisfactory for the beauty it possesses. The secluded and remote nature of Bhutan has preserved its natural beauty and vibrant culture in its original state. The lush landscape, wild Himalayas and the colorful, vibrant culture of Bhutan has made it in the top charts of any nature and culture lover.

The Nepal Tibet Bhutan Tour presents a wholesome, thrilling experience of the three neighboring Himalayan countries. This experience is accordingly enhanced by the company of our warm-hearted team, who is endlessly devoted to meeting your demands.
